Personal Reference

Dylan Jordan
Insurance Manager

Dylan and I have known each other for over 5 years. We have served together on our churches worship team.

"I can attest to Michael's skills and hard work ethic. If hired he would be an excellent addition to our team. His email software has already doubled my productivity." - Dylan Jordan

WHY I WANT TO BE HERE

After spending 8+years in the medical field. I ready to make the transition into being a full-time developer

I am constantly taking freelance work and building my own projects, but I would love to enter a position where I am part of a bigger team. One where I can learn from everyone around me and collaborate on projects that challenge me and allow me to bring my skills to help everyone on the team.

HOW I CAN ADD VALUE

This role aligns well with my character qualities. I am a quick learner and a hard worker. What I may lack in experience, I more than make up for with my ability to problem solve and research to get the job done well. I am highly organized and goal-driven, but my true passion learning and improving on current technologies.

WHERE I'VE BEEN

CPN Risk Management LLC
08/20 – 09/20
Developer/Contractor

- Developed two automation programs, using Python, to verify professional emails given inputs and preset parameters, and send out emails to the same inputs using SMTP servers.
